Re: Comments on LightSquared Filing, Docket No. 11-109

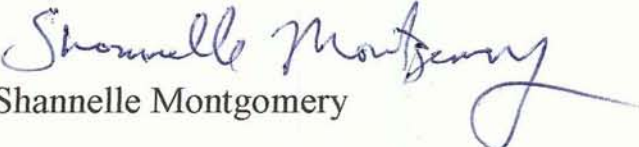

Dear Ms. Dortch:

I travel across many communities between Maryland and Florida. Those communities vary by income, ethnicity, religion, and terrain. Common threads between the communities are cell phones and broadband access.

Regrettably, there are disparities amongst the communities as it relates to pricing, access, and the quality of service.

I support LightSquared's enormous effort to level the field a bit. LightSquared's efforts and the positive policy behind leveling the digital playing field will make America better. We will lead in the new economy.

Very truly yours,

  
Shannelle Montgomery
